

A photograph of Trinity College Dublin, featuring its iconic dome and classical architecture, set against a clear blue sky. The building is surrounded by greenery and other campus structures.

MEMORY RESEARCH

NEEDS VOLUNTEERS

**DO YOU HAVE MEMORY DIFFICULTIES?
OR HAVE YOU BEEN DIAGNOSED WITH EARLY-
STAGE ALZHEIMER'S OR AMNESTIC MILD
COGNITIVE IMPAIRMENT?**

Find out if you qualify to participate in our clinical research.

Volunteers Needed Memory Research

Trinity College Institute of Neuroscience, College Green, Dublin 2

You may qualify if you:

- Have been experiencing memory loss lately, or have been diagnosed with amnesic Mild Cognitive Impairment (aMCI) or early-Alzheimer's.
- Are 50+ years old.
- Are a native English speaker.

Participation involves:

- 3 visits over the course of 28 days to our lab in Trinity College Dublin.
- Neurostimulation (applied during a computer-based task).
- EEG and a series of cognitive and mood questionnaires.

Benefits of participating:

- Contribute to cutting edge neurostimulation research investigating memory
- Neurostimulation is non-invasive, safe, involves no drugs, and has few adverse side effects. This non-invasive technique has been applied to younger (18 - 35 years old) and older (65+) adults (with no prior memory difficulties) with positive results.
